## Assembly Instructions

**Tool Required: Phillips Screwdriver**

1. To move the Adjustable Shelf (E), remove the #6 x 1/2" Undercut Screws (M) and the Shelf (E). Reposition the Shelf Brackets (L) to the desired positions, replace the shelf and insert the screws. See Figures 1 and 1a.

2. Move the piers to your desired location. To level the piers, rotate the Adjustable Glides (U) found on the bottoms of the legs. See Figure 1.
3. **While this is optional, we strongly recommend you complete this step to help make your piers more stable. If you do not wish to screw the piers to the side of your headboard you may contact our Customer service department to request furniture tipping restraint kits for your Piers.** Insert six #8 x1-1/4" Black Screws (N) into the predrilled holes on the side panels of the left and right piers and attach the piers to the Bookcase Headboard. See Figure 3.

*Door removed for illustration purposes.*
